

Docket No. RSW920010184US1

ABSTRACT OF THE DISCLOSURE

METHOD, SYSTEM, AND PRODUCT FOR PROCESSING HTTP REQUESTS BASED ON REQUEST TYPE PRIORITY

A method, system, and product are disclosed for
5 reordering the processing of HTTP requests. A computer
system is included which is executing a Web-based
application. A priority is associated with each one of
different types of HTTP requests. Multiple HTTP requests
are then received by the Web-based application. A
10 priority associated with a type of each of the HTTP
requests is determined. The HTTP requests that are
associated with a higher priority are processed before
processing the HTTP requests that are associated with a
lower priority.
